

DRAFT¹
RPS CLASS I RENEWABLE GENERATION UNIT
POWER PURCHASE AGREEMENT

BETWEEN

[_____]
[Buyer]

AND

[_____]
[Seller]

As of [_____], 201_

¹ This draft RPS Class I Renewable Generation Unit Power Purchase Agreement is intended to provide a general description of the terms to which the electric distribution companies are willing to agree. The final Agreement will be subject to negotiations with the individual electric distribution companies and will be customized to address the relevant circumstances, such as different generating technologies and purchases of an entitlement to all RECs produced by the generating facility, as well as rules specific to purchases and sales from adjacent control areas, as applicable. Accordingly, certain provisions in the final Agreement may differ from this draft Agreement.
