Mr. Joseph Rossignoli
Project Director
Granite State Power Link
P.O. Box 1440
Concord, NH 03302

Dear Mr. Rossignoli:

I am writing to inform you that IBEW Local 104 will actively encourage the Massachusetts Clean Energy Center to strongly consider the merits of the Granite State Power Link in the upcoming RFP process. As you know, IBEW Local 104 members have provided a well-trained, efficient and highly productive workforce for utilities, municipalities and contractors across the region. IBEW clearly sees the need to deliver clean, renewable sources of energy to New England to address our region's energy shortage and we strive to work with all transmission developers on the development of these projects. We look forward to working on GSPL to deliver a much-needed source of clean, reliable energy to the region.

Sincerely,

A handwritten signature in blue ink that reads "Brian T. Murphy".
