Thorn Dickinson, Vice President, Business Development  
Central Maine Power  
70 Farm View Drive  
New Gloucester, MAINE 04443

Dear Mr. Dickinson:

LEAN has been pleased to confer with Avangrid about low-income benefits in Avangrid's expected 83D bid. We understand that these benefits will include funding for low-income energy efficiency at \$1.1 million annually as well as \$400,000 annually in support for emerging customer-facing energy technologies for the benefit of low-income customers.

LEAN will be pleased, assuming Avangrid receives an award in the 83D process, to collaboratively implement the low-income energy efficiency program that is proposed for funding. LEAN will also be pleased to participate in the proposed collaborative and further consultation to develop details of initial and future funding objectives and processes.

Sincerely,

Low-Income Energy Affordability Network (LEAN)

/s/ Jerrold Oppenheim
