17 State House Station
Augusta, Maine 04333-0017

To the Maine Department of Environmental Protection,

I recently had the privilege of touring the Sanford Airport site proposed for Ranger Solar's 50 megawatt solar farm. It is clear to me that Ranger's team has done its due diligence, continues to solicit input from the community and airport users, and is precisely the type of renewable development Maine is seeking to attract.

As the Senate Chair of the Energy, Utilities, and Technology Committee, I hear from many energy developers; I have been impressed with Maine-based Ranger's approach. Ranger Solar knows our communities are looking for the next industry to welcome to town, and given my work in the Legislature, I'm happy to learn that solar continues to look favorably at Maine and my district in particular.

Sincerely,

A handwritten signature in cursive script that reads "David C. Woodsome".
