The following is a simplified diagram which depicts the corporate relationship between Brookfield Asset Management, Brookfield Renewable and Brookfield Energy Marketing.

**Brookfield Asset Management (“Brookfield”)** is a global alternative asset manager with approximately \$250 billion in assets under management. With a 100-year history, Brookfield owns and operates assets with a focus on property, renewable energy, infrastructure and private equity. Further information about Brookfield Asset Management, including financial reports, is available at [www.brookfield.com](http://www.brookfield.com).

**Brookfield Renewable Partners (“Brookfield Renewable”)** operates one of the world’s largest publicly-traded, pure-play renewable power platforms, with approximately \$19 billion in assets. Diversified across 82 river systems and 15 power markets in North America, Colombia, Brazil and Europe, its portfolio is primarily hydroelectric and totals more than 10,600 megawatts of installed capacity. The portfolio generates enough electricity from renewable resources to power over four million homes on average each year. With a portfolio of high-long-term cash flows supporting regular and growing cash distributions to shareholders, Brookfield Renewable represents \$19 billion in renewable power assets. Further information about Brookfield Renewable, including financial reports, is available at [www.brookfieldrenewable.com](http://www.brookfieldrenewable.com).

**Brookfield Energy Marketing L.P. (“BEMLP”)** is an indirect wholly owned subsidiary of Brookfield Asset Management and, pursuant to a Power Agency Agreement, is responsible for managing the output from the renewable energy facilities owned by Brookfield Renewable (including the Firming Hydro Facilities). BEMLP provides the necessary scheduling, settling and billing functions required to participate in wholesale power markets, and is a good standing member of NYISO, ISO-NE, PJM, MISO, CAISO and the IESO.
