

Chad Allen

PROFESSIONAL EXPERIENCE

Longroad Energy

Director, Development | Mar 2023 – Present

- Lead development of utility-scale solar, wind, and storage projects across the Northeast
- Oversee project strategy, stakeholder engagement, permitting, and financing

Development Manager | May 2020 – Mar 2023

- Directed development of solar, wind, and storage projects from origination through financing
- Managed M&A, real estate, interconnection, permitting, EPC, and project finance activities

Cianbro

Project Development | 2018 – May 2020

- Identified and advanced renewable energy and large capital project opportunities
- Built strategic relationships with clients, utilities, engineering firms, and subcontractors
- Led pre-construction efforts: outreach, scope, permitting support, EPC coordination, estimating, scheduling

Senior Project Engineer, Estimating – Power & Energy | 2014 – 2018

- Developed cost-competitive strategies for utility-scale transmission, substation, and distribution projects (7.6kV–500kV)
- Led estimating and proposal preparation, incorporating risk mitigation and project execution strategies
- Maintained relationships with subcontractors, vendors, and engineering partners

Senior Project Engineer, Wind Energy Services | 2008 – 2014

- Supported wind energy capital projects and maintenance services across the U.S.
- Provided technical support, project management, and pre-construction services
- Led estimates, proposals, and business development efforts

Metso Paper

Technical Sales | 2002 – 2004

- Delivered technical sales and customer support for tissue machinery and services
- Developed cost-effective performance improvement solutions for clients

Research & Development Engineer | 1999 – 2002

- Specialized in paper production processes and product development for global customers
- Supported sales, machine projects, and start-ups across North America and Europe
