PROFESSIONAL EXPERIENCE

Longroad Energy Partners

Vice President, EPC | Sep 2016 – Present

- Lead EPC strategy and execution for Longroad's renewable energy portfolio, including wind, solar, and storage.
- Oversee engineering, procurement, contracting, and construction management for projects nationwide.
- Manage vendor negotiations, contract structuring, budgets, and risk mitigation.
- Build and direct multidisciplinary teams to deliver projects aligned with corporate growth and investor expectations.

SunEdison

Vice President, Construction West / Wind Energy | Dec 2014 – Sep 2016

- Directed construction and delivery of utility-scale wind projects in the western U.S.
- Oversaw construction teams, contractors, and subcontractors, ensuring compliance with safety, quality, and schedule goals.
- Supported integration of First Wind's construction group into SunEdison's broader renewable energy platform.

First Wind

Vice President of Construction, West | Oct 2007 – Dec 2014

- Managed development and execution of wind energy construction projects across the western U.S.
- Led EPC contract negotiations, construction planning, and field operations.
- Coordinated with project developers, utilities, and regulatory agencies to ensure successful project commissioning.

M.A. Mortenson Company

Project Manager, Energy Group | Jun 2000 – Oct 2007

- Oversaw renewable energy construction projects, with responsibilities spanning scheduling, cost management, subcontractor oversight, and client relations.
- Supported early-stage wind project delivery as Mortenson became a leading renewable EPC contractor.

EDUCATION

Montana State University – Bozeman, MT
