**RE: Agawam Energy Center, Silver Street, Agawam, MA
250 MW Battery Storage Project**

Dear Mr. Allen,

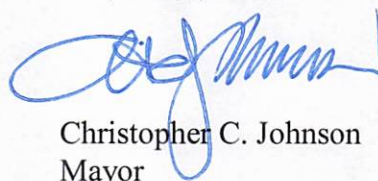

Please accept this letter as an attestation of my strong support for Longroad Energy's proposal to build a 250 MW battery storage project on the former Lucia Lumber site on Silver Street in Agawam. The proposed project will deliver significant capacity and potential rate relief to Massachusetts ratepayers, while advancing clean energy goals.

Longroad Energy has been open and transparent in the local permitting process and received all necessary local permits to move forward with the project. Longroad has agreed to meet the most stringent safety standards in the industry, and has worked closely with Agawam's public safety personnel in the design of the facility.

This is an important economic development project for our community and the region. It will generate much needed local revenue for the town, and will create quality construction jobs and permanent jobs when the project is completed.

Please do not hesitate to contact me with any questions.

Very truly yours,

Christopher C. Johnson
Mayor
